

## What is the best way in C to convert a number to a string?

**Solution:** Use sprintf() function.

```
#include<stdio.h>
int main()
{
    char result[50];
    float num = 23.34;
    sprintf(result, "%f", num);
    printf("\n The string for the num is %s", result);
    getchar();
}
```

[Run on IDE](#)

You can also write your own function using ASCII values of numbers.
